

The Michigan Care Improvement Registry (MCIR) was created in 1998 to collect reliable immunization information for children and make it accessible to authorized users. A 2006 change to the Michigan Public Health Code enabled the MCIR to transition from a childhood immunization registry to a lifespan registry including citizens of all ages in the MCIR. MCIR benefits health care organizations, schools, licensed childcare programs, pharmacies and Michigan's citizens by consolidating immunization information from multiple providers into a comprehensive immunization record. This consolidation reduces vaccine-preventable diseases and over-vaccination, allowing providers to view up-to-date patient immunization history in one system.

Michigan Childhood Immunization Registry

Dear Parent,

We are a participating MCIR reporting provider. The state run organization maintains immunization records for children in the state of Michigan. In order to send this information accurately we require the following information:

Patient Name: _____ DOB: _____

Home
Address: _____

City/State _____ Zip _____

County of Residence: _____

Mother's Maiden Name: _____

BioMother's
Name: _____

Mother's SSN: _____

BioFather's Name: _____

Father's SSN: _____

Birth Order (circle one) 1 2 3 4 5 6 7 8 9 10

Birth Facility: _____

Birth State and Country: _____

Thank You for Your Assistance
